

# IM30 PCI 5 Quick Setup Guide

## CONTENTS CHECKLIST

Please check the box contents after unpacking. If any components are missing, please contact the dealer.

Name	Qty.
IM30 Unattended Payment Terminal	1
M4 Nuts	4
M4 Screws	4
IM30 Mounting Bracket	1

---

## PRODUCT DESCRIPTION

The following section points out the various hardware features and functions of the IM30.

### Front View

**Back View**

## INSTRUCTIONS

The following section provides basic operating instructions for the IM30.

### Power ON/OFF

- **Power ON:** Link the IM30 to a power source via the MDB port, Executive, or RS232-A ports.
- **Power OFF:** Disconnect the IM30 from the power source it is connected to.

### SAM Card Installation

1. Remove the SAM card module cover to reveal the SAM card slots (2).
2. Open the mount and insert the card into the slot with the contacts facing towards the IM30 unit and with the clipped corner of the card to the upper

right, then lock the mount with the card inside.

## Device Installation

---

## CARD READERS

The IM30 includes the following card readers:

### NFC/Contactless Card Reader

Orient the card of NFC device parallel to the LCD screen and then place it directly over the screen.

### Magnetic Stripe Reader (MSR)

Orient the card with the magnetic strip facing toward the device, then insert the card fully into the card reader slot before sliding up and down or down and up.

### EMV Reader

Insert the card fully into the card reader slot with the contacts oriented upwards and towards the IM30.

---

## CLEANING THE DEVICE

- Do not use industrial strength or abrasive cleaner as it may damage or scratch the screen.

- Do not immerse the device in water or liquid.
  - Do not spray water or cleaner into ports.
  - To clean the screen, apply distilled water or mild glass cleaner onto a soft, lint-free cloth and gently wipe terminal.
- 

## **TERMINAL USAGE TIPS**

- If any cables become damaged, seek a replacement.
  - If there is any suspicious object, please report to the related administrator.
  - Do not insert unknown materials into any port on the IM30; this may cause serious damage.
  - If repairs are required, please contact a professional technician instead of attempting them on your own.
  - Avoid exposing the device to an excessively hot, dusty, or strong electromagnetic environment.
  - Do not vibrate, shake, or drop the device.
  - The IM30 is designed for outdoor use; however, during normal use its surface should still be keep clear of dirt and possible liquid contaminants. While the IM30 is designed to resist ingress of dust and liquids, it is not designed to resist pressurized liquids such as water hoses. Keep the back of the device away from dust and liquids as much as possible.
- 

## **For 5GHz WiFi version**

### **FCC compliance statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user

is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### **FCC SAR statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body

#### **ISED compliance statement**

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

le dispositif utilisé dans la bande 5150-5250 MHz est réservé à une utilisation en intérieur afin de réduire le risque de brouillage préjudiciable aux systèmes mobiles par satellite dans le même canal;

#### **IC SAR statement**

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.

Cet équipement est conforme aux limites d'exposition aux rayonnements ISED établies pour un environnement non contrôlé. L'utilisateur final doit suivre les instructions spécifiques pour satisfaire les normes. Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.

Le dispositif portatif est conçu pour répondre aux exigences d'exposition aux ondes radio établie par le développement énergétique DURABLE. Ces exigences un SAR limite de 1,6 W/kg en moyenne pour un gramme de tissu. La valeur SAR la plus élevée signalée en vertu de cette norme lors de la certification de produit à utiliser lorsqu'il est correctement porté sur le corps.

### **For non-5GWiFi version**
