③ Power

Power on: Press and hold the power button for three seconds until screen display lights up and tablet powers up.
See page 2 (Front View) for the location of the power button.
Power off: Press and hold the power button for three seconds. Select "Power off".
Charge: Plug USB cable into USB port (see page 2, Right Side View for the location of the USB port) or place the tablet onto its base to charge the tablet.
Charging indicator: Charging indicator light displays charging status:
• Red indicator – Tablet is charging.
• Green indicator – Charging is complete.
• Red and green indicators flashing alternately – Charging problem. (See page 2 Front View for the location of the Charging indicator.)

④ Card Readers

Magnetic stripe card: Insert magnetic stripe card into card slot and push to the end with magnetic stripe facing down, then pull out card at a constant speed to swipe card.
Smart card: Insert card with IC chip facing up, then push it to the end of the card slot. Leave card inserted until prompted to remove.
Contactless card: When prompted, hold contactless card over center of contactless area. See page 2 (Front View) and page 3 (Underside View) for the locations of the contactless areas.

5

⑤ SAM Card

1. To insert SAM card, open SAM card slot and insert card with chip facing up (see page 4). Close SAM card slot cover.
2. To remove SAM card, first push it further into slot. (The card will then stick out of the slot a little.) Next push card again to remove it.
⑥ SIM/Micro SD Card

1. Open tray cover and insert SIM card ejector tool into hole at side of card tray until tray opens.
2. Take tray out and put the SIM/Micro SD card on the tray in the direction shown on page 4.
3. Gently push tray back into slot until firmly seated.

⑦ Battery

Remove Battery
1. Remove the adapter on the underside of the tablet by removing the 4 screws as shown.

6

2. Unclench the battery cover from the shown corner and remove battery

Install Battery
1. Put back battery and the cover back and secure them.
2. Put back adapter and lock the screws.

⑧ Privacy Shield

Caution: While the installation of a privacy shield is not required, they do offer additional protection.
Please Note: Once installed, the higher privacy shield will be fixed and cannot be removed, while the lower privacy shield can be removed.

Low Privacy Shield   High Privacy Shield

1. Align the four pegs on the privacy shield with the four mounting slots around the keypad.
2. Press the privacy shield firmly to secure it into place.

7

⑨ Specifications

Operating System: Android 7.1
CPU: Quad-Core Cortex A53, 1.8GHz
Memory: 1 GB RAM + 8GB Flash
Display: 6-inch, Resolution 720 x 1280 pixels, multi-touch capacitive screen, supports stylus pen
Audio: Built-in speaker, supports headphone output
Camera: Front camera, 2-megapixels with flash, fix focus, high-speed code scanning

⑩ Device Location

Locate the device on a counter top, desktop or table top. Keep the device away from direct sunlight, excessive dust, moisture, and heat. Avoid locating the device near electrical devices that might introduce interference such as microwave ovens and blow dryers.

⑪ Cleaning the Device

⚠ **WARNING:**
• Do not use industrial strength or abrasive cleaner as it may damage or scratch the screen.
• Do not immerse tablet in water (or liquid).
• Do not spray water or cleaner into card reader or ports.
• To clean screen, apply distilled water or mild glass cleaner onto a soft, lint-free cloth and gently wipe screen.
• To clean tablet, apply distilled water or plastic-safe cleaner onto a soft, lint-free cloth and gently wipe tablet.

⑫ Installation and Usage Tips

• Base functionality is not available while the device is connected to a computer or when it is being charged using a Type C plug.
• Use the included USB cable with power adapter to charge the device, otherwise the device may not operate normally.
• Avoid exposing the device to an excessively hot, humid, dusty, or strong electromagnetic environment.
• Do not vibrate, shake, or drop the device.
• Do not insert or unplug any part of the device while it is powered on. This may cause damage to an internal circuit.
• Please contact PAX technical support for assistance with the device.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.
