

END OF LIFE NOTICE: PAX D210 & P^x5 terminals

To our Valued Customers and Partners,

PAX is proud to provide the market with the most innovative and secure payment technology available. As part of this focus, we must discontinue production and support of older, less secure products.

With this notice PAX is officially announcing the End-of-Life (EOL) for the PAX D210 Mobile Payment Terminal and the P^x5 Retail PIN-Pad.

This includes ALL the following part numbers for each product.

D210: D210-00W-353-01EA, D210-0PW-364-01NA and D210-0PW-364-02NA.

Px5: PX5-00L-R74-01LA, PX5-00S-R74-01LA and PX5-00S-R74-02LA.

The dates below signify final availability and terminal end of service dates for the D210 and P^x5 products.

- **FINAL ORDER DATE:** PAX will cease taking orders all D210 & Px5 terminals, each of the part numbers listed above, on **27-December-2019**.

Customers will have the opportunity of ordering new units and accessories until the Final Order date or until current inventory is depleted .

- **FINAL SHIP DATE:** Orders placed by **27-December-2019** will ship by **31-January-2020**.
- **END-OF-DEVELOPMENT DATE:** There will be no new PAX sponsored hardware changes, application enhancements or software development as of receipt of this EOL letter, **27-September-2019**.

Repairs support will be available for existing customers of these products for two years after FINAL SHIP DATE (**28-January-2022**), as component availability permits, unless explicitly agreed upon between PAX and a customer.

- **END-OF-SERVICE DATE:** On **28-January-2022**, Service and Repair on all the part numbers listed above will be discontinued. Spare parts will not be guaranteed to be available after this date.

27-September-2019

PAX offers several different Mobile Payment terminals that can be used as an alternative to the D210. This includes the S920 as well as one of our new Android offerings - the A920 or A60.

PAX offers several different options as potential replacements to the P^x5, ranging from the Q30 (4" screen size) and the P^x7 (7") to the new Android Aries8 (8") and upcoming Aries6 (6").

We encourage and recommend that all our valued partners and customers initiate plans to migrate your end-of-life products and applications to one of the exciting new PAX products. These newer PAX terminals provide affordable and higher performance successor products that meet today's most stringent PCI security standards. Please feel free to contact your local sales person for additional information or visit the PAX North American web-site at www.pax.us.

Sincerely,

Tony Fernandez
